Global Delivery Model

The Global Delivery model (GDM) pioneered and perfected by K-Soft over the years have made global strategic sourcing a reality today, and forms the very core of K-Soft's ability to respond to client needs on-time and on-budget. K-Soft Global Delivery Model brings faster, superior quality solutions at minimum risk and optimum cost.

Knowledge Partnerships

K-Soft strategic relationships with the world's leading companies and partnerships with industry leaders allows us to stay ahead of the technology curve

World-class, Secure Infrastructure

K-Soft works through a backbone of resilient, secure infrastructure spread across multiple locations. Reliable client connectivity is safe component of K-Soft's global delivery model.

Superior Quality, Excellence in Delivery, Optimum Cost

K-Soft understands that offering low cost without high quality is meaningless, and that providing even the best quality is futile without on-time delivery. Stringent quality checks ensure that the quality of the software development work delivered is superior by all standards. The software development work processes at K-Soft are streamlined to achieve maximum benefit.

Intellectual Assets

A company is known by the people it employs. Most of K-Soft's Employees are professionally certified on various certifications like Sun Certification, Microsoft Certification and Oracle Certification. Etc...

Research and Innovation

K-Soft invests extensively in technology and domain research to understand how technology impacts your business as a whole. K-Soft studies, invents and improves leading-edge technology tools and engineering techniques and applies its intellectual property to K-Soft worldwide projects. Expertise and experience brings you the latest advantages, technology has to offer.
